Subject: Redistricting Commission

To whom it may concern:

I am writing in support of Eddie Morgan to serve on the Citizen Redistricting Commission. Not only do I know Eddie, but know well the region he would represent. As only the second Commission to serve in this important function, I feel it is important to point out the obvious: Northern California and rural areas are not presently represented and that was the case in 2000. It is important at least one representative have first hand knowledge of rural issues. This will, at the very least help guide the choices made by your commission in making the various redistricting choices ahead of you.

Eddie, has a military background, is multilingual, and is a small business owner in Eureka. It is clear from your initial eight choices on a map of California, that the population centers will be well served. I hope we can expect at least one quality representative of rural Northern California to share their background and expertise with your commission.

Thank you for your consideration,

Jim
