Dear Redistricting Commissioners: Can it be possible there may be no Latinos on the Redistricting Commission? What sort of recruiting or outreach efforts were made to make certain there was that ethnic representation? With such a large percentage of our population being Latino, it is inconceivable there are none qualified or willing to serve on this Commission and I would like to hear the reasoning behind this outrageous oversight. Why are there are no Latinos from the San José area, the 10th largest city in the country? Is there any plan to remedy this situation? With whom does the responsibility lie regarding a rectification?
