Subject: Public Comment - The Importance of Latino Representation of the CA Citizens Redistricting Commission
Date: Tuesday, August 4, 2020 1:47:04 PM

Dear Commissioners,

As you undergo the final steps in selecting the next six members of the California Citizens Redistricting Commission, I implore you to consider selecting as many Latinos as possible to serve on this important body. California's Latino community is 39% of the population and there are currently 0 commissioners on this commission. To not have a commission that closely resembles the demographics of California jeopardizes the legitimacy of this commission and the functions it was slated to do - which is to ensure fair representation for all Californians.

Thank you,
Christian Arana
