[REDACTED]

Hi, my name is Mable and I am a proud Californian, and I am also chair of an Asian employee resource group at a global company headquartered in SF and am involved in a leadership capacity at an umbrella organization advocating for the Asian Americans community called Asian Leaders Alliance. I strongly recommend Linda Akutagawa for the 2020 Citizens Redistricting Commission. In my experience working with Linda on diversity and inclusion initiatives, I know she is someone who leads with compassion, integrity, and authenticity. Linda would be an asset to the redistricting commission. In addition, I am also aware that she could be the only voice representing East Asians in the commission. That is critical to recognize because Asians is an umbrella term and not monolithic. Not only that, there isn't anyone else I can think of more qualified and suitable to advocate for the API community and the broader community than Linda. With the OC having the 3rd largest API population in the nation, I can't emphasize how important it is that we have a representative, who gets the community as well as Linda, be a part of the commission. Please consider her application and thank you.
