To California Redistricting Commission,

I would like to send a letter of support for candidate Peter Blando. In listening to your deliberations, I would like to commission to consider that Peter has done a lot of work with the community.

He has also served as the UC Davis Staff Assembly Chair. He has served on many committees including the UC Davis Police Accountability Board. In this work, he has been able to represent the diverse issues of university staff in these committees.

He has more than just technical skills as he is able to listen to the constituency and focus on the issues brought forth and bring those voices to the committee to make an impact on the decision.

I have known him for two decades and also know that he has lived in different parts of California from Orland, located in Glenn County, to San Francisco. I think he can properly represent the diversity of the state and you should consider him strongly for one of the remaining commission positions.

Peter brings a strong work ethic and passion to his projects and I know he would be a great addition to your Redistricting Commission.

I would be proud to be represented by him.

Thank you for your time,

Sujei Gonzalez
